MAKING THE WORKPLACE SAFE AND PRODUCTIVE

Who We Are

Human Engine Inc. provides software and professional services solutions that enable companies to streamline operations while dramatically improving workplace safety and ergonomics. Employee health and safety are crucial concerns for companies in the manufacturing and distribution sectors, and Detroit-based *Human Engine* brings over two decades of corporate experience to solving these issues with technology-intensive tools that fit the client's workflow, reduce hazards and improve the bottom line.

What We Do

Human Engine works closely with its industrial customers to understand their operations; we design and implement high-impact tools and systems that streamline operations while making the workplace safer and more productive for valued employees.

What We Stand For

At *Human Engine*, our goal is to help our industrial clients achieve ever-higher levels of competitiveness and efficiency, while at the same time creating the safe, healthy, productive work environments that all workers deserve.
